## EXPERIENCES

### Chargeoplus

UI/UX designer - 2021 (In the coding phase)

Chargeoplus is an application to quickly and directly carry out payment services in Iran for residents abroad without having an account inside Iran. As a UX / UI designer, to improve the design and user experience and add new features and services, I redesigned its current version to a unique and trendy style.

### Maknak

UI/UX designer - 2020 (In the coding phase)

Maknak an in-house solution for payment and customer management. As a UI/UX designer, I've helped them redesign their old application and bring new and useful features to their novel and trendy design. It has two different versions for purchasing service and customer management, depending on their customer type.

### Arvan Cloud Design System

UI designer - 2021 (In the coding phase)

In co-operation with Hamid R Mousazadeh, We took their old-fashioned panel design and their dedicated design system and redesigned it into an up-to-date design.

### Inverse School

UI designer - 2020 (In the coding phase)

As a member of the Inverse school design team and in collaboration with Hamid R Mousazadeh and Paradigm studio, I've worked on their tablet and mobile version of their new website. Also, I helped them to create a dedicated Design system with excellent details.

### Digitalling

UI designer - 2020 (launched)

Digitalling is an online platform in the field of digital marketing in Iran. I helped them expand their business from a telegram channel to a novel online platform by designing their website in collaboration with Hamid R Mousazadeh.

### HerbalNic

UI/UX designer - 2019 (launched)

HerbalNic is a small team that offers inspiring lifestyles to improve your health and balance your body, mind, and soul by offering solutions from the heart of nature. I helped them redesign their website to launch products online store, publish healthy solutions.
